### 1 Time Keeping

Over the course I found that I kept getting distracted from the course projects. For me the most significant issue was not practising the practical side of programming, at first I felt lost, this might be due to the fact that i had been out of education for an extended period of time. Unlike being employed, education requires you to demonstrate your own timekeeping more strictly than employment would. Having experienced university I now realise I have not sufficiently developed my ability to use my free time efficiently. I will schedule my time and note it to keep track of my progress, by creating a daily timetable that will account for programming practice and leisure.

### 2 Communication

In class i have seen a great lack of communication, for me its mainly my pride that is the cause. Previously in my old employment I know that being in charge meant that I had to communicate with the staff in order to work efficiently. Initially I felt uncomfortable asking questions to anyone. As time went on though I became comfortable talking to the tutors about my issues. Having discussed my position in the class with the tutor I

now realise that i wasn't the only one. Through this I have significantly improved my ability to communicate with my peers. This means that
